## LET THERE BE ART!

## Art Night

Despite all the budget cuts, the arts are surviving at AHS. Wednesday night, the annual Evening of the Arts was held in the lobby and auditorium. The lobby was filled with high school art of all types, much of it created by the AP Art class. Something new this year was a display of t-shirts with designs created by students. It was a good reminder that art is everywhere. Even at the 6PM starting point, the lobby was packed with people. Some of the artists were there to explain their work.

At 6:30PM the musical part of the program began in the auditorium. The show began with our own Rhythmics performing "Night Changes" and "Attention." Rhythmics in attendance were Desmond Brisson, Ginger Brisson, Charlotte Costigan, Nora Costigan, Avari Henson, Bailey Kimball, Sophia Manetakis, Ellie Marden, Emmalyn Omohundro, Andrew Roberts, Jessica Silva, and Heather Wetherell. Heather Wetherell and Ellie Martin were their own brilliant selves in solos. The Rhythmics were then joined by the AMS Melody Club, Cashman

Treblemakers, and AHS Chorus to perform Leonard Cohan's "Hallelujah" and "Put a Little Love in Your Heart." This went particularly smoothly, since the younger students had come to the high school that afternoon to rehearse with the high school kids. Johanna Kimball and Susanne Meyer, who is retiring this year, conducted. Mr. Fijalkowski presented flowers to Meyer. Lorelei Donohue and Carol Rose Costantino had solos in "Hallelujah."

Heather Wetherell and Noah Aspeslagh then performed Psycho Killer by Talking Heads. Noah played guitar while Wetherell sang and played bass.

Next and last was the Rock Band. This group consists of Noah Aspeslagh,

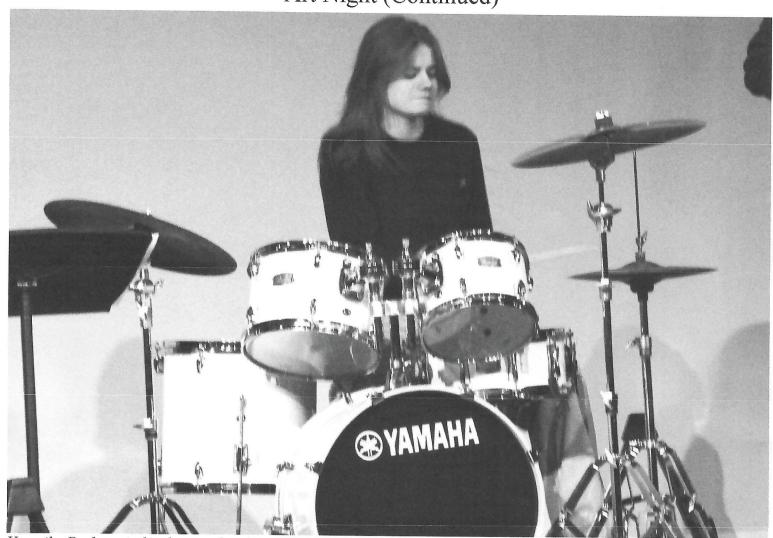

Elora Leet, and teachers Greg Brown and Meyer on guitar and bass, Casey Eckelkamp and Veronica Ruzkova on drums, Andrew Maguire and Jameson Valle on keyboards, and Ellie Marden and Heather Wetherell as singers. They performed "Twelve Bar Blues" (with original lyrics by Heather Wetherell), "Tom's Dinner," "The Scientist" (Ellie Marden as the soloist), and "Burning Down the House." The program ended at about 7:30PM, with Meyer urging the audience to take another look at the visual arts on their way out.

#### REGIS IN THE RUNNING

Is Ms. Regis America's favorite teacher? She entered a contest to find out. The contest is sponsored by the Planetary Society. The Planetary Society inspires future explorers through education, innovation, and a passion for the cosmos. Founded by Carl Sagan in 1980, it is the world's largest nonprofit space organization, with a mission to increase discoveries in our solar system and beyond. Every day Regis's friends have been voting for her and she is currently first in her division. If she makes it through the first round, she will continue to compete. The grand prize for this is a trip to Hawaii, a \$25,000 grant, an article in Reader's Digest, and a school assembly with Bill Nye, the science guy.

The goal of this contest is to raise money for the Planetary Society, but the first vote is free and people can vote daily. People can also buy extra votes with donations to the Planetary Society. If she wins the money, Regis said she would put some of it towards the boat shop project and go for the second master's degree.

## ASK PETUNIA-JONES!

A Super Seventies Vacation!

Dear Petunia Jones,

I am planning an excursion... an excursion of peace and joy... and also the Cold War and Watergate scandal... an excursion to the 70's! Unfortunately, I have no idea how to get to the 70's or what to do when I get there! Can you help me Petunia?

-Austin Powers

#### Dear Austin!

I can assure you, I am the best advisor in this situation. I have time travelled extensively in the past and I consider myself an expert! I also Coauthored most of the 70s with Patti Smith, so I will be able to tell you exactly how to fit in.

Firstly, you must assemble a time machine (you can create a satisfactory time machine using materials found in your home, such as time-y tomato soup, parsley, sage, rosemary and THYME, a rabbit's foot, paper towel rolls, nuts and bolts, flint and steel, and something that represents the decade you are traveling to! For the 70s, I suggest a brown fringed leather jacket (be sure that it looks distinctly 70s, because due to the material's similaritys to the hide of a saber tooth tiger, the time machine could misinterpret it as a garment from the stone age). Once you have assembled your materials, use the paper towel rolls to construct a frame. Make sure the frame is tall enough to comfortably walk through but not overly tall (or you will scare the 70s natives). use the nuts and bolts to coat the frame, giving it a machine look. After, utilize the timey tomato soup and the time themed herbs (you only need thyme for this step, disregard parsley and sage) and garnish your time machine! Once your time machine is prepared, strike it with the flint and steel to activate it. you must first send your item (the jacket) through the portal to alert the time machine to what decade you would like to travel to, and then, follow it through!

Once you have entered the machine, you will be immediately released into the 70's (the machine will disappear so if you want to return to your current decade, you will have to re-assemble it (if you are accidently transported to the stone age due to a jacket related mishap, you may not be able to aquire the materials you need to re-create the machine. If this happens to you, I suggest re-building your life with a new stone age family and house like the Flinstones). If you are successful, you will arrive safely in the 70's! In order to fit in with your new generation, you will need to take the following precautions. ONLY wear bell bottoms. If you are not wearing bell bottoms they will find you and bell your bottoms. You also must be sure to carry a disco ball at all times, this will let the others know you mean them no harm!

Good luck and enjoy your trip!

## **AURORA MONTELLO**

## Senior Profile

By Alice Moulton

Aurora, or RoRo to some, would say the most unique thing about her is her weirdness! Her greatest accomplishment has been

just making it to senior year. It's the little things!

I school, Aurora is in StuCo, varsity track, and softball. Aurora would say her favorite class is her free block. If Aurora could have changed anything about her high school career, she would have wanted to be more motivated. Overall, Aurora's favorite parts of high school have been the hockey games, pep rallies, and hanging out with her friends, including K y l i e Desmond.

Outside of school, Aurora is the best dog sitter for Ms. Bailin! She also enjoys listening to music, fishing, and hiking. Some other things Aurora enjoys are Chipotle, Roblox, and shopping at TJMaxx. If she were granted three wishes, she would want free Chipotle for life, for everyone to become successful, and

Amesbury High Schoo

to adopt a raccoon.

If they made a movie about Aurora's life, she would want to play herself. If Aurora had to pick a specific person, she would say her biggest hero is her mom, as she is the strongest woman Aurora knows! On a less heartwarming note, Aurora would say her most embarrassing moment was running

into the polls in the hallway every year. Ouch! Some other odd habits of Aurora's are saying random things in the wrong situations, yawning, and rubbing her nose.

S o m e expressions Aurora tends to overuse are 'gurl,' 'erm,' or 'HUH!?' She may say these things when she sees her two biggest pet peeves... loud chewers and slow walkers... According to Aurora, the best looking person is herself. Confidence is key!

When Aurora was young, she wanted to be a professional fencer. Now, she plans on buying a tiny home and finishing her NECCO Program. In ten years, Aurora hopes to live in a different state with lots of cats! Meow.

We hope Aurora meets her goals, and lives the life she desires!

## LAURA OLIVEIRA

## Senior Profile

By: Gabriella Entrican and Piper Sanford.

Laura would say the most unique thing about her is that she moved to America a year ago!

We're glad she's here! Laura's one word t o describe herself is honest because she likes to be around honest people and likes honesty! Laura's favorite teachers are both Ms. Murphy and Mrs. Rivers because they helped her a lot when s h e moved here and is very grateful for both of them! Additionally, Laura's favoirte subject is Spanish because she loves to learn new lauguages and finds it really easy because she

speaks Portuguese as her mother tounge.

Laura's favorite part of school is the fact that its almost over because she's been a senior twice! (Yikes!) If Laura could change one thing about her time in high school, she wishes

she could have played a sport. The most memorable part of high school that Laura has enjoyed the most is being apart of the yearbook staff and taking photos of different sporting

MORS Amesbury High School

events. One person Laura really appreciates is Piper Sanford! Piper is a great friend to Laura; she is always very supportive! Laura also finds Camila Ventura someone she really appreciates because Camila is her best friend whom she loves to share

stories with!

Laura's favorite hobby is to travel to new places, learn new cultures, and meet new people! Laura also loves to watch TV shows and

> movies. She loves everything related to music! Laura's three wishes for the AHS Weekly Genie are the ability to teleport, to have a lot of money and to live a good life with people she loves! In ten years, Laura sees herself being successful after going to college and getting a degree. She sees herself starting a family and keeping up with all the friends she's made. Laura's greatest mystery she wants explained is what happens in the afterlife (very interesting!)

> When Laura was little, she wanted to be a veterinarian

because she loved animals! Laura's message to her eight-year-old self is that your life is going to change completely in a way you've never imagined, but you'll be fine, and more than anything, you'll be happy!
